

Study Guide Template

Course: _____

Exam Date: _____

Chapter / Unit: _____

How to Use This Template

- Group your material by topic, not by the date it was taught - related ideas from different lectures belong together.
- Write summaries in your own words. Copying notes verbatim doesn't test whether you understand the material.
- Don't skip the practice questions - a guide you only re-read is a reference document, not a study tool.
- Repeat the Topic block below for every section your exam covers.

Topic 1: _____

Summary

Key Terms & Definitions

Term	Definition

Practice Questions

- 1.
- 2.
- 3.

Topic 2: _____

Summary

Key Terms & Definitions

Term	Definition

Practice Questions

- 1.

- 2.
- 3.

Prefer this filled in automatically? **StudiGEMS** turns your slides, notes, or PDFs into a study guide like this - summaries, key terms, and practice questions included - in under a minute.
